JoJo

Features

The striking, elegant and curvaceous form of the JoJo stool seat has an almost plastic characteristic due to the innovative 3 dimensional ply forming technology employed. The resultant organic and ergonomically friendly form provides arguably one the most comfortable stool seat shapes possible. Two frame styles complement the seat design in the form of high and low four legged models or alternatively the height adjustable, swivelling centre pedestal column.

Finishes

The 3D plywood veneer shell is available as matt clear lacquered Alpi American Walnut or matt white tinted Alpi Oak. There is also the option to clear lacquer, stain or colour wash on to more neutral beech shells.

Design: Johannes Foersom and Peter Hiort-Lorenzen

Danes Johannes Foersom and Peter Hiort-Lorenzen are two of the most eminent Scandinavian designers of the last twenty years or so. Based in Copenhagen, Denmark, they formed their partnership in 1977 and continue to enjoy international recognition due to their extensive and enduring design and development skills.
