

Jules Keyboard Platform

Slatwall Mounted

Primary Customer Need:

For use with the Galilei Riser to replace a worksurface for an external keyboard. Allows keying and mousing at the same height. Recommended with a laptop on a passive shelf using the laptop as a CPU and screen, also at the right height.

User Requirements:

- Eliminates the need for another worksurface for computing.
- Allows for use in the seated or standing position – 48"H Riser.
- For use with the 36"H or 48"H Galilei Riser.
- An economical keyboard platform that will support a rectangular keyboard as well as allow for mousing.
- Mousing surface is non-handed and retractable when not in use.
- Requires 20" wide knee space.

Product Features:

- Style Number: KJULES
- Size: W19 x H4 x D21
- Color: Pewter and Champagne
- Construction: Cold rolled steel bracket. Platform and mouse are injection molded ABS.
- Application: Use on 36"H or 48"H Riser to replace a worksurface
- Warranty: 10 years
- Mounting: Mounts to any Slatwall, although 36"H or 48"H Riser is recommended to replace a worksurface for computing.
- Installation: Easy to field install.
- Meets industry standards for supporting an external keyboard.
- Ideal for multi-user workstations for easy positioning.
- Anti-dislodgment tabs on the bracket prevent the keyboard support from being knocked off the riser.
- Shock dampening through TPR (Thermoplastic Rubber) grommets.
- Cable management is provided by guide or grip end clamp.
- Ambidextrous, integrated mousing adjusts for left or right-handed mousing.
- Palm rest is covered in a washable nylon material.

For a better day at work.™
