

shades and screens

DESIGN
Tex

With a palette created for looks both restrained
and bold, our distinctive selection
of shades and screens fits any design vision.

shades and screens

Shades and screens regulate incoming solar heat and light, reduce glare and provide a comfortable environment. When used in interior spaces, they define individual workspaces or create a sense of privacy.

when used as shades

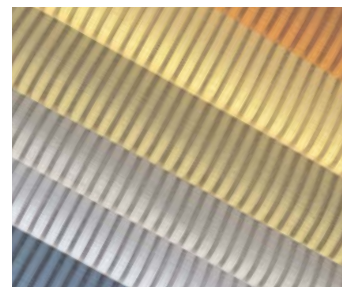

- regulate solar heat
- regulate visible & uv light
- provide thermal insulation
- reduce glare
- produce a more comfortable environment
- allow a view to the outside
- add a decorative aesthetic

when used as screens

- define workspaces
- create a sense of privacy
- add a decorative aesthetic

features

- vibrant, saturated color palette
- wide widths, good yield
- contemporary, sleek
- knitted, not woven, for dimensional stability
- pvc-free
- Trevira™ CS Polyester available
- blackout option available
