

THE CADRE SERIES

H B F

1255-13 | The mid-back Cadre chair 36OH x 24OW x 23OD is distinguished by the polished aluminum arm with upholstered arm cap.

The Cadre Series | Influenced by classic modern European design, HBF introduces the Cadre Series of management and executive seating. Designed by HBF's Kevin Stark, this innovative series features polished aluminum arms, a sleek, thin profile and two control options. Conferencing and collaboration are playing ever larger roles in the daily agenda of today's office, hence requiring an elegant chair that can bring contemporary comfort to the table and be equally at home behind the desk.

1255-23 | Cadre Series is also available in a high-back version 41½OH x 24OW x 23½OD, chairs upholstered in Equestrian leather from HBF Textiles.

1257-23 | The graceful continuous arm on the Cadre high-back chair creates a modern aesthetic for conferencing areas when the chair is viewed from the back.

Below: The polished aluminum arm is shown with the upholstered arm cap.
Cadre chairs featuring this arm are standard with a synchro-tilt mechanism that allows the seat and back to move independently.

Three arm options are available: upholstered arm cap, black urethane arm cap, and a full urethane arm. The urethane arm is ideal for heavy use areas while maintaining the pure, flowing form of the design.

Above: The polished aluminum wrap-around bar connects both arms for added visual interest. Cadre chairs with this arm option are standard with a knee-tilt mechanism; a fixed height chair is also available for conferencing applications.

For additional comfort, the Cadre Series is also available with an elegant, semi-attached cushion featuring a channel stitching detail.
