

THE REGENT SERIES

H B F

The Regent Series

The Regent Series, designed by HBF's Kevin Stark, provides the manager/executive with an aesthetically appropriate swivel tilt chair that ensures anatomical and functional support. Regent is available in both mid and high back and is standard with a pneumatic seat height adjustment and synchronized seat and back movement. Based on traditional design elements, while incorporating modern passive ergonomic principles, this series provides multiple solutions for today's office environment.

Regent high back chairs 46 OH with black base and optional maple wood cap. From left to right – management chair 1175-25 with “gathered back” upholstery detail, the 1181-25 executive chair with “button back” upholstery detail and the 1171-25 management chair with “sewn” upholstery detail.
