**Vox®Reception™ Desk**  
Design: Mark Müller

# nienkämper

**Product Description:**

Vox® Reception™ is a versatile and comprehensive program of furniture elements that are suitable for Corporate-Reception, Library-Reference, and Information style desks that can be constructed in any scale.

This kit of parts design integrates a series of components in a range of sizes that can be quickly joined together in an unlimited number of configurations.

**Product Features:**

- 32" deep work surfaces
- Two edge profiles: Taper edge, or Facet Edge
- All tops are available in wood veneer, plastic laminate and quartz stone.
- Component driven elements in rectangular or radiused corners that range in size by 6" increments from 48" to 72" in length.
- Height adjustable work surfaces and modesty panels - in three styles; ratchet, crank or electric motor
- Dual channel power/data raceway with 5 circuit power system
- Bezel mounted faceplates allow universal data/voice jack installation
- Site levelling is accommodated with removable panels and easily accessible levellers
- Aluminum gallery supports with optional translucent glass, veneer or laminate panels.
- Gallery areas include accessory tracks with a range of desk top accessories
- Fully portable storage elements in small, medium and large capacity with a range of pull and finish options.
