FreelanceTM

Transitional design, ultimate convenience, unlimited possibilities

Features

- The transitional look of Freelance makes it appropriate for a wide variety of applications and environments.
- Arm and armless models, two stool heights and bookrack and tablet arm options make Freelance ideal for lobby areas, cafeterias, break rooms, training rooms, educational and institutional environments. The applications are endless.
- Freelance can be upholstered using SitOnIt's ballistic nylon option or specified in one of six designer plastic colors.
- The soft poly arms provide a user-friendly feel. The gently rolling curve enhances the chair's aesthetics and provides support and comfort.
- Freelance stacks six-high for mobility and for convenient storage.
- The underside of the seat features an injection-molded shroud, which enhances aesthetics, function, and stackability.
- The frame includes a wall saver feature incorporated into the design.
- Standard nylon glides prevent marring on floor surfaces.
- The optional ganging feature promotes maintained alignment and space planning.
- An ergonomic back and waterfall seat promote comfort and fit.
- Freelance's "anti-tip" feature makes it ideal for educational and institutional applications.

Color options

Ganging

Both versions of Freelance may be ganged, arm-to-arm as well as armless-to-armless.

Stacking cart

Freelance can be easily stacked and stored.
