

A place for everything

Hard-working, common sense storage gives you amazing control: easy access to stuff you need now, a back burner for coming attractions, and archives for one-of-these-days. Everything – papers, files, disks, project stuff, whatever – has a home. Information flows faster, work moves quicker, life goes easier.

Zen and the art of storage.

An uncluttered, organized work area calms the nerves and improves efficiency. Provide adequate, convenient storage.

Support different styles.

Some people pile things, some work with files, others prefer extreme organization. Get the kinds of storage that support the ways people work.

Storage Towers

TS2TWRS54L
54" high, left handed wardrobe,
open side shelf, file/file
your price: **\$1,078**
