Steelcase

Bring work environments to life with the natural warmth of wood. Whether you're furnishing one office or an entire building, choose from a broad range of designs that span from crisp and modern to timeless and traditional. Whatever you select will seamlessly blend our heritage of fine craftsmanship with today's technology.

If you have something unique in mind, we can help. We specialize in innovative, custom-tailored solutions delivered with personal attention. With our strong wood tradition, commitment to the environment, and deep understanding of how people work, we strive to help you create inspiring, high-performance work spaces.

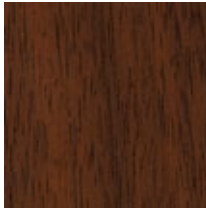

## COLLABORATION

Collaboration is all about comfort and flexibility. A fully upholstered seat and back offer a high level of comfort while its variety of aesthetic options provide significant design flexibility. In addition to open and closed arms, you can choose any of five stylized, laser-cut arm inserts in matching or contrasting wood colors. The result is versatile seating you can specify for almost any guest, conference, reception or dining application. Designed for Steelcase by Dennie Pimental and John Duffy.

\* The wood used in Oriana's construction is solid maple.  
Wood finishes applied to maple will match the color of  
stains applied to oak, walnut, or cherry but will not have  
the same natural grain.
