

Steelcase

Pure or mixed. Make your statement.

Use Unison™ alone or with our other furniture systems to create versatile work environments.

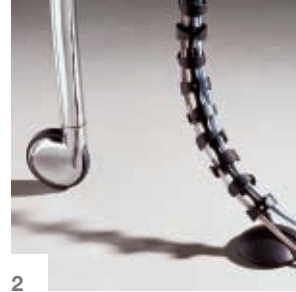

- Provide visual continuity between private offices and open plan areas with freestanding or panel-supported components
- Blend with Steelcase Pathways™ Technology Wall, Answer®, I-Line Moveable Wall™, Montage™ or Kick™ for planning ease
- Satisfy aesthetic and price point needs with multiple materials
- Deliver a clean, light-scale design to any space
- Meet changing technology requirements with flexible power and data solutions
- Built in LEED™ (Leadership in Energy and Environmental Design) facility with water-based finishes

This page: Shared team space application features mobile tables and storage. A standing height reference area complements the space and utilizes the technology management capabilities of the Pathways Technology Wall. (Shown: Pathways Post and Beam, Technology Wall, and Unison components and storage).

On the cover: 120° corner workstations and standing height mobile storage form efficient, flexible and elegant workstations. (Shown: Pathways Post and Beam, Montage and Unison components and storage).

Traditional Privacy

1 Maximize application options by integrating freestanding and wall-hung components in Steelcase I-Line Moveable Walls

Simple Connections

2 Keep cords and wires together with Skeleton Bone wire manager

3 Locate power and data units in open storage or under worksurfaces for easy laptop, printer or fax machine hook-up

Support Choice

4 Use E-leg for stately aesthetic

5 Increase fixed and mobile options with Cabby leg

6 Support worksurfaces with table hitch

Visual Options

7 Design new looks with wood, translucent, and painted storage fronts

8 Stylize with Jazz, Deco and Contemporary pulls

Distinguished Construction

9 Create high-end fit and finish affordably with mitered cases

Alternative Work Styles

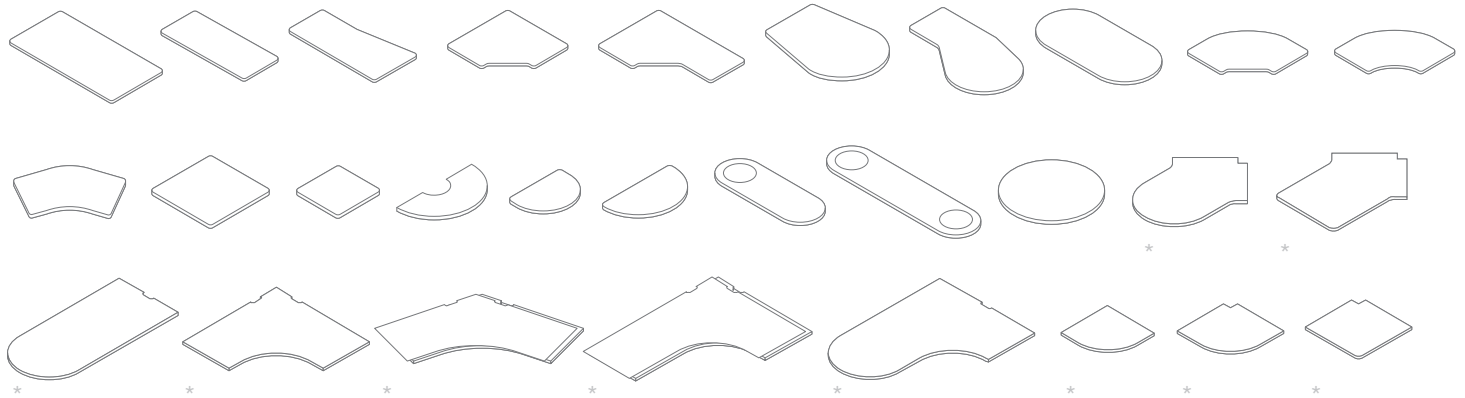

10 Support standing-height applications and unique storage requirements with Hedgerow solutions

Dynamic Flexibility

11 Combine Unison side opening towers and panel-supported worksurfaces and components smoothly into an Answer environment

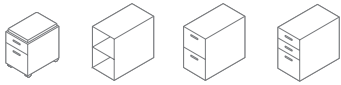

Unison Abbreviated Statement of Line

Worksurfaces

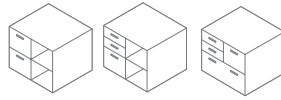

* These worksurfaces are only for use with panels in panel-hung applications
