

ASSISA®

VECTA

assisa®

For many years a steady performer among multipurpose stacking chairs, Assisa has been improved in two significant ways. The height of the backrest has been lengthened, providing more support and comfort to the middle back.

A four-leg base has been added and is available with casters or glides. This improves the functionality and mobility of the chair as well as giving it a whole new aesthetic.

The four-leg base is available in black or silver.

Four-leg caster in silver: 102400C

Sled base model: 202250

Optional bookrack and tablet arm can be added for learning environment applications. The tablet surface is available in black, while the tablet arm frame and bookrack are available in black or chrome.

102400G Four-leg glide in black base

Accessories:
102254 Tablet arm
102251 Bookrack

The seat or back can be upholstered with foam inserts in standard Vecta fabrics, vinyl, leather or approved COM.

102408 Four-leg stool

The Assisa stool is ideal for casual dining and informal meeting areas.

102400G Four-leg glide in silver base

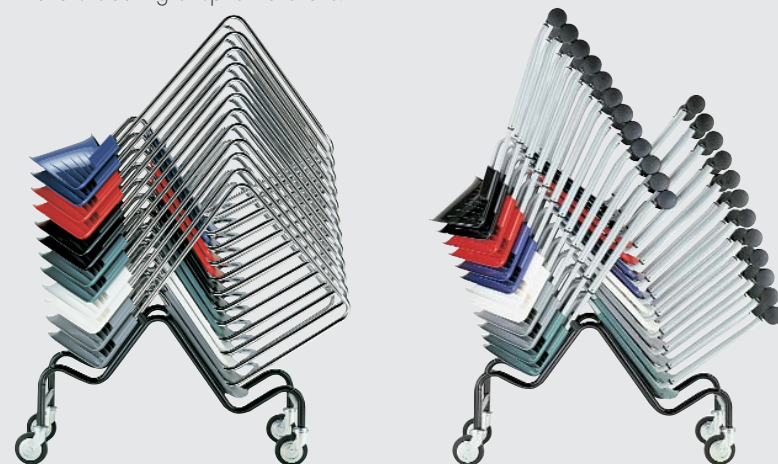

102450C Upholstered four-leg on casters

202250 Sled base in chrome

102400C Four-leg on casters in silver

102450SC Seat upholstered fourleg on casters

The dolly stores either the sled or the four-leg version. The design allows easy stacking and unstacking of up to 15 chairs.

102266 Dolly in black or silver

Six chairs stack on the floor.

Three stools stack on the floor.

Gangers are available for the sled version.

103206 Gangers for use with sled base chairs
