

furniture care services

At One Workplace we offer a variety of services that protect new furniture and breathe a second life into your existing furniture. We proudly partner with NEx Systems to bring you environmentally sound fiber cleaning and protection. And, with our repair and refinishing service, you'll have the smart, cost-savings advantage of reusing existing inventory.

Carpet Cleaning

NEx Systems' environmental fiber protection system protects new and existing carpets, removes accumulated residue left by traditional cleaning methods and prevents resoiling.

Furniture Cleaning

NEx Systems' environmental dry cleaning system removes accumulated residue left by traditional cleaning methods and prevents resoiling.

Furniture Protection

NEx Systems' environmental fiber protection system protects new and existing textiles, both inside and out, making them impervious to spills and spots.

Furniture Repairs

We can provide on-site refurbishment services, including touch-ups to repair scratches, dents and wood discoloration.

Furniture Refinishing

One Workplace has a full-time refinishing staff, working in a shop that includes two E.P.A. certified spray booths, a wood shop, a detail room and panel recovering area. We can restore your furniture to like-new condition.

Contact your One Workplace sales executive to talk about the many benefits of One Workplace's Furniture Care Services.
