

# ONE WORKPLACE

COVID-19 SOLUTIONS FOR LEARNING ENVIRONMENTS: IDEA GUIDE

K12 through Higher Ed schools understand the impact of COVID19 is forcing them to **adapt** to new ways of learning. And we understand Education Leaders **need uncomplicated solutions.** We have some to share.

We filled this book with strategies and concepts to support learning during the coronavirus pandemic. You'll find adaptable, flexible, and simple tools for K12 and Higher Education environments. We hope to engage you in conversation to review the possibilities as your institution pivots in new directions.

Some of these conversations might not be easy, but we are here to help, plan, suggest, consider, and implement. We're here to listen. Contact us to explore your planning for now and for the future.

# Our Process

## Processes & Procedures

Understanding federal, state, and local government guidelines as well as organization procedures is our priority to developing a safe and healthy return to school.

# Holistic *Human* Solutions

## Design Principles

Keeping created design principles in every solution and decision will help to curate a unique experience that feels human.

## Brand & Culture

Keeping messaging and solutions on brand and within organization values is important to allow culture to stay in the forefront of these solutions.

## Signage & Wayfinding

Clear pathways, directionals, instructions, and friendly reminders for clear expectations that are easy to follow.

## Furniture Solutions

Space division, layouts for social distancing, sanitation stations, and real estate utilization needs to be smart and efficient.

K12 SOLUTIONS

# Distancing & Orientation

Providing fun **visual cues** like graphics on the ground can help keep safe social distance between students.

**Student engagement** is more important than ever—use graphics and social distancing to your advantage.

Orient students to **face each other** rather than all facing the front to promote eye contact and engagement.

# Environment & Power

**Living plants** increase cognitive functions and help improve overall wellbeing.

**Clear dividers** for visual connection, collaboration, and protection.

**Mobile power units** ensure social distancing without inhibiting access.

**Color coding** lets students self-monitor exposure and working in zones helps students maintain a collaborative culture.

# Prep & Readiness Zone

A **sanitation station** in the corridor for handwashing and clean-up prior to entering the classroom or heading home.

**Rethinking entryways and corridors** as health and safety check-in areas.

Each **color-coded locker** is separated by **6'-0"** for ease of social distancing.

# Wellness & Respite

Comfortable, calming places to get away for **focus** and **mental wellness** that are easy to clean.

Playful use of **biophilic materiality** and connections to other living things.

**Personal tables** for individual students reduces shared surfaces.

**Graphics on the floor** denote social distancing protocols.

# Utilizing Third Spaces

**Smart real estate optimization** ensures healthy and safe distancing by using flexible furniture options.

Pods and individual study zones provide efficient and safe **heads down space**.

# Enhanced Technology

Technology solutions enhance the learning experience for everyone - whether on campus or at home.

The **BlueJay** brings state of the art technology to learning environments. This enhanced 360 HD camera with **integrated conferencing capabilities** allows socially distanced students to feel as if they are in the classroom.

**Wireless classroom displays** can be fully mobile and support multiple room configurations—all while keeping social distancing and improving viewing conditions. As an added feature, **integrated controls** can **share content from student devices**.

# Outside Opportunities

Convert the **basketball court**, or any other outside sports area, to a space for learning.

Nearly year-round beautiful weather in California makes **outdoor learning spaces safe** and socially distant areas to gather with the added benefit of **enhancing cognitive function**.

**Multiple postures and gathering styles** can engage both educators and students and support social distancing.

# COMMUNITY COLLEGE & HIGHER ED

# Gathering & Socializing

The student lounge space reflects a variety of choice and control with **biophilic elements** that help with cognitive abilities.

**Stand alone pods** with acoustical privacy create a room within a room for private heads down or study space, one-on-one meetings, and partner working zones.

# Independent Study

Upon entering each area, a **sanitation station** is provided.

A **sectional lounge** that pulls apart or places together, as needed for social distancing.

**Independent spaces** to sit and study, meet for counseling, or mentor and tutor.

# Multi-Purpose Space

Larger workstation **spaces with storage** minimize shelving, maintaining access to natural light.

**Dividers** between workstations for health, safety, and comfort.

Mobile guests used **designated seating** to ensure social distancing.

# Technology & Safety

Phone apps, touchless access, signage, and integrated sensors provide data for users to **make safe, informed decisions**.

One customized app can show options for **social distancing** and meeting **changing occupancy requirements**.

An integrated app shows students where there are **safe spaces**.

# Move Outdoors

Examine your campus and **get creative with where and how students gather**. Example: parking structures provide shade and can act as makeshift classrooms with the proper flexible furniture and technology.

Furniture designed for **flexibility and mobility** means moving outside is easy. Bring along your mobile whiteboard to support **collaboration** and your hygiene station for **safety**.

All of our schools must **re-imagine** social closeness, teaching and learning in increasingly remote and distanced ways. There is no single solution to this crisis. The right approach will need to be **uniquely** designed incorporating your insights and concerns.

One Workplace can help you through this uncertain time as you uncover and explore the solution that is right for you through the following:

- Social Distancing Layouts
- Density Studies & Recommendations
- Signage & Wayfinding
- Environmental Graphics
- Graphics
- Furniture Solutions
- Technology Solutions
- AV Solutions
- Return to School Workshops
- Space Utilization Guidelines
- Circulation and Directional Traffic Flows
- Professional Space Cleaning & Sanitization
- On-Going Support and Space Management
